Have we been able to attract all the people we want?</p> <p data-bbox="207 682 1406 972">Response: BC Hydro believes that we are able to attract suitable candidates, and there is no gap in the current plan. We are in the process of ramping up recruitment for the Site office and the majority of open vacancies are proceeding per expectations. There have been delays where we have taken the time to re-post to find the right candidates with the required qualifications and desire to reside in Fort St. John. However, we expect the positions to be ultimately filled in the short term so as to allow a full complement of staff to do the necessary work.</p>
