	Question: Any stats available on number of person years of direct employment realized as of today, and number of person years of direct employment which may not get realized in the event of a suspension/termination, effective Dec 31, 2017?									
	<p>Response: Please note that this document refers to person-years of employment. Person-years are useful for describing the total employment of the Project using a common unit of measurement. A person-year is the unit of measurement used to estimate jobs (referred to generally as “jobs” in the Environmental Impact Statement), and it is the total number of hours worked in a year by an average worker.</p> <p>Actual and Estimated Direct Person-Years prior to Dec 31, 2017 suspension/termination scenario Notes:</p> <ol style="list-style-type: none"> 1. BC Hydro’s estimates reflect fiscal years (Apr 1 to Mar 31) 2.
