## Old Fort Road – Temporary traffic impact on Old Fort Road

Dear neighbours,

We're continuing drainage repairs and improvements near Old Fort Road, as required by the Environmental Assessment Office to repair areas of erosion and improve drainage to prevent potential future erosion.

Starting **Monday, Nov. 28, 2022 after 9 a.m.**, drivers on Old Fort Road can expect some brief delays as crews work on the ditch line in the area.

### What to expect:

- Single lane alternating traffic will be in place on Old Fort Road.
- Flaggers will be in the area, directing traffic starting after 9 a.m. and drivers may experience brief delays until 4:30 p.m.
- Every effort will be made to minimize traffic delays as a result of this work.
- Work will take place six days a week. We'll endeavor to avoid working on Sundays.
- These brief traffic delays are expected periodically over two weeks.

The overall drainage repair and improvement is scheduled to be completed by the end of December 2022.

Please contact us if you have any questions.

Sincerely,

Site C Project Team
