Custom Venting Forecast

Company: **Plan B Tech**
Burn Registration Number(s): on file

Issued: October 25, 2020

FOR BURNING ON: October 26, 2020

Synopsis:

Monday: A warm front crossing the site will bring an increase in mixing heights and moderate southwest winds in the afternoon. Venting will improve to good.

Tuesday: A cold front moving south of the region will bring an increase in mixing heights. With moderate west winds good venting will persist.

Wednesday: A high pressure ridge building over the BC interior will bring more stable conditions. With lighter winds venting should fall to fair.

Comments: Caution on Monday as the warm front is forecast to cross the site near noon. Any delay
