

Site C Employment by Month: October 2016

Since construction started in summer 2015, BC Hydro's Site C Clean Energy Project has been creating jobs for British Columbians. In the coming months and years, many more jobs will be created as main civil works increases activities, and as major contracts get underway for turbines and generators, transmission and the generating station and spillways.

The table below shows the latest Site C employment numbers.¹ As with any construction project, the number of workers — and the proportion from any particular location — will vary month-to-month and also reflects the seasonal nature of construction work

October 2016 Highlights

- The latest employment statistics show that there were 1,868 total workers on the Site C project in October 2016.
- Of the total workers, 1,589 were from British Columbia, or 85%.
- There were 713 workers on site from the Peace River Regional District — that's nearly 50% of the construction and non-construction contractor's workforce.

Site C Employment Statistics – October 2016				
	# of Total Workers	# of B.C. Primary Residents	% of B.C. Workers	# (and %) of Peace River Regional District Primary Residents
Construction and Non-Construction Contractors² <i>Excludes work performed outside of B.C. (e.g., Manufacturing)</i>	1,466	1,236	84%	713 (49%)
Engineers and Project Team³	402	353	88%	---
Total Workforce	1,868	1,589	85%	---

Employment numbers provided by Site C contractors and consultants are subject to revision. Data not received by project deadline may not be included in the above numbers.

During the month of October 2016, there were no workers working under the federal Temporary Foreign Worker Program from Construction and Non-Construction Contractors. BC Hydro has contracted companies for major contracts, such as main civil works, who have substantial global expertise. In October, there were 21 management and professionals working on the project through the federal International Mobility Program.

¹ Employment numbers are direct only and do not capture indirect or induced employment.

² Construction and Non-Construction Contractors includes work performed on Site C dam site, transmission corridor, reservoir clearing area, public roadwork, worker accommodation and services.

³ Project Team includes consultants, BC Hydro Construction Management and other offsite Site C project staff. An estimate is provided where possible if primary residency is not given.

Oct 2016: Site C Construction and Non-Construction Contractors' Job Groupings

The table below shows¹ the latest Site C Construction and Non-Construction Contractors numbers², broken down by job groupings. As with any construction project, the number and type of workers will vary due to the seasonal nature of construction work and the type of work performed.

The data below is reflective of Construction and Non-Construction Contractors that are required to provide job classification data. Job classification data not required by contractors is also noted. Data provided by Site C contractors are subject to revision. Data not received by project deadline may not be included in the numbers.

¹ Employment numbers are direct only and do not capture indirect or induced employment.

² Construction and Non-Construction Contractors includes work performed on Site C dam site, transmission corridor, reservoir clearing area, public roadwork, worker accommodation and services, and office staff.
