*includes a UTM grid location in NAD83 to + or – 100m accuracy (zone 2 digits, easting 6 digits, northing 7 digits)
2. The permit holder must submit an up to date copy of the above record to Front Counter BC annually. The record must be submitted by January 31 of each year, containing all records from the previous calendar year. The permit holder must also submit the comprehensive summary of all activities undertaken under the authority of this permit within **21 days** of the permit's expiry.
3. The permit holder must produce a copy of the record referred to in paragraph 1 on the demand of an officer.

GENERAL CONDITIONS:

1. The permit holder must comply with all laws applicable to the activities carried out under this permit.
2. This permit extends to the permit holder's employees or contractors only when they are engaged in the direct performance of their duties on behalf of the permit holder.

4. The permit holder must take all reasonably necessary steps to ensure that public safety is not jeopardized and fish or wildlife habitat is not damaged by any action taken under authority of this permit.
5. This permit **does not** authorize the molestation or destruction of **active** bald eagle nests. The removal or destruction of nests must be undertaken and completed outside of the critical period for raptors (April 1st to July 31st). If removal or destruction of a bald eagle nest must be conducted within the raptor cautionary period (March 1st to March 31st and August 1st to September 30th) a qualified professional must confirm the nest is *inactive*.
6. The permit holder must compensate for the removal or destruction of documented bald eagle nests by installing a minimum of **38** artificial nesting platforms as detailed in documents included in BC Hydro's October 24, 2014 permit application.
