PEACE RIVER SITE C HYDRO PROJECT
AN OPTION TO HELP CLOSE B.C.’S GROWING ELECTRICITY GAP

Tell us how you would like to be consulted and about the topics you wish to discuss.

As directed by the 2007 BC Energy Plan, BC Hydro is commencing a pre-consultation process to seek input from local, regional, and provincial communities and stakeholders on the potential for an additional hydroelectric facility on the Peace River – Site C.

A decision on whether to build Site C is still years away. The project is one of several options available to help meet the growing gap between supply and demand of electricity in B.C.

During the pre-consultation process, BC Hydro is seeking input on how British Columbians want to be consulted about the project and the topics they wish to discuss.

Feedback opportunities include:
• Online consultation discussion guide and feedback form: www.bchydro.com/sitec
• Written submissions: sitec@bchydro.com or PO Box 2218, Vancouver, BC V6B 3W2
• Community Consultation Office: 9948 100th Ave, Fort St. John (opening early 2008)
• Toll-free phone: 1-877-217-0777
