

## Site C Employment by Month

Since construction started in summer 2015, BC Hydro's Site C Clean Energy Project has created hundreds of jobs for British Columbians. In the coming months and years, thousands of additional jobs will be created as major contracts get underway for main civil works, turbines and generators, transmission and the generating station and spillways.

The table below shows the on-site construction workforce numbers since August 2015. As with any construction project, the number of workers — and the proportion from any particular location — will vary month-to-month and also reflects the seasonal nature of construction work.

<b>Site C Employment Statistics</b>			
<b>Month</b>	<b>Total Number of Workers on Site</b>	<b>Number of B.C. Workers on Site</b>	<b>% of B.C. Workers</b>
March 2016	666	490	74%
February 2016	691	492	71%
January 2016	564	381	68%
December 2015	518	345	67%
November 2015	482	314	65%
October 2015	641	457	71%
September 2015	665	475	71%
August 2015	392	322	82%

*Employment numbers are provided by Site C contractors and are subject to revision.*

*The table above does not capture indirect or induced employment. In addition, the numbers above do not include off-site jobs.*
