1.0 Background

The Site C Clean Energy Project (the project) is a hydroelectric dam and generating station under construction in northeast B.C. Construction started in July 2015 and the project will be in service in 2024. The project will help meet future electricity needs by providing 1,100 megawatts of dependable capacity, and producing about 5,100 gigawatt hours of energy each year — enough to power the equivalent of 450,000 homes per year. Once built, the project will be a source of clean, reliable and cost-effective electricity in B.C. for more than 100 years.

The key components of the project are:

- Access roads and a temporary construction bridge across the river, at the dam site.
- Worker accommodation at the dam site.
- Upgrades to 240, 269, 271 and Old Fort roads.
- The realignment of seven segments of Highway 29.
- Two temporary cofferdams across the river to allow for construction of the earthfill dam.
- Two new 500 kilovolt transmission lines connecting Site C to the Peace Canyon Substation, within an existing right-of-way.
- Shoreline protection at Hudson's Hope, including upgrades to DA Thomas Road.
- An 800-metre roller-compacted-concrete buttress to enhance seismic protection.
- An earthfill dam, approximately 1,050 metres long and 60 metres high above the riverbed.
- A generating station with six 183 MW generating units.
- An 83-kilometre-long reservoir that will be, on average, two-to-three times the width of the current river.

2.0 Environmental Assessment Certificate Requirements

The [Site C Construction Communications Plan](#) (the Plan) has been developed in accordance with the Conditions 39, 43 and 72 of the Environmental Assessment Certificate (EAC), and guides construction communications and community relations during the construction phase.

This annual report provides a review of the construction communications activities undertaken as part of the Plan during the third year of construction. Note that the reporting period covered by this annual report is **July 1, 2018 – June 30, 2019**.

Table 1 describes how BC Hydro is meeting the EAC Conditions that relate to the Plan.

Table 1. EAC Conditions Addressed in the Construction Communications Plan

Condition Number	Condition	Plan Reference
EAC Condition 39	The EAC Holder must provide information to the Province of Alberta, during construction and operations, to assist in their communications with anglers in Alberta regarding changes in	No downstream effects have originated from the Site C project as of June 30,

	downstream fishing opportunities due to construction activities and longer-term changes in fish community composition.	2019. A letter will be sent to the Province of Alberta with the required information when available.
EAC Condition 43	The EAC Holder must develop an Emergency Services Plan that includes at least the following to describe how the EAC Holder will implement measures to: Communicate Project emergency management plans to all emergency service providers, and provide updates as plans are amended.	BC Hydro is meeting this condition. BC Hydro Site C Emergency Action Plan is reviewed and updated regularly.
EAC Condition 72	The EAC Holder must manage effective communications for the Project by implementing measures in communication plans and a business participation plan. The following communication and participation plans are to be developed and implemented: <ul style="list-style-type: none"> • Business Participation Plan; • Construction Communication Plan; and • First Nations Communication Plan. Each plan in addition to plan specific conditions identified in this document will include: <ul style="list-style-type: none"> • Clear Statement of Objectives; • Audiences; • Key activities and tools; and • Annual summary reporting. 	BC Hydro is meeting this condition. The following plans have been developed and are actively being implemented. <ul style="list-style-type: none"> • Business Participation Plan; • Construction Communication Plan; and • Aboriginal Group Communication Plan.

3.0 Construction Communications Plan Structure

Consistent with EAC Condition 72, the [Construction Communications Plan](#) provides the following items:

- A clear statement of objectives,
- Audiences,
- Key activities and tools, and
- The requirement to provide annual summary reporting.

4.0 Implementing the Construction Communications Plan

In order to implement the Construction Communications Plan, and achieve the goal of keeping members of the public and project stakeholders informed about current and upcoming construction activities, a variety of key activities and tools are being used.

These key activities and tools cover a range of items to ensure a broad distribution of construction-related information. In addition, information and notification will be provided through ongoing community relations, as well as Indigenous group engagement and consultation. Please refer to the [Aboriginal Group Communication Plan](#) for more information about how construction information is being shared with Indigenous groups.

The key activities and tools listed below have been implemented in order to meet the specific objectives of the Plan. Please see the report appendices for detailed information.

Table 2. Current Status of Construction Communications Plan Activities, July 2018 – June 2019

Construction Communications Activities		
Activity or Tool	Purpose	Status During the Reporting Period (July 2018 – June 2019)
Project Website (sitecproject.com)	<p>The project website will be updated to include regular information about site preparation, early works and construction activities, as well as all construction-related information.</p> <p>This information is expected to include an eight-year construction schedule summary, a one-month look-ahead schedule for construction, and background information on construction. In addition, the website will include relevant project maps, a construction photo gallery, and information for businesses and workers.</p>	<p>The project website was updated frequently over the course of the fourth year of construction to include information about current and planned construction activities, mobilization of new Site C project contractors, as well as general construction-related information.</p> <p>This information includes a summary construction schedule, biweekly construction bulletins, and background information on construction activities. In addition, the website includes project maps, a construction photo gallery and information for businesses and workers.</p> <p>Please see Appendix A for more information.</p>
Public Enquiries Program	<p>A public enquiries program has been developed to support two-way communication with members of the public and project stakeholders. This system includes a toll-free phone line, Site C email address, online enquiry form and staffed consultation office.</p> <p>Using these various methods, members of the public can receive up-to-date information about construction activities and provide feedback or comments about the project</p>	<p>The Site C communications team monitors all communications channels and tracks, reviews and responds to all public enquiries.</p> <p>2,167 public enquires were received and responded to during the reporting period of July 1, 2018 – June 30, 2019.</p> <p>To date, the majority of enquiries have been related to job and business opportunities.</p> <p>Please see Appendix C for more information.</p>

Construction Bulletins	Site C construction bulletins will be developed, posted on the project website, delivered to key news outlets and emailed to web subscribers. The construction bulletins will provide advance notification of construction activities, its potential impacts and duration.	<p>Biweekly construction bulletins provide a two-week look ahead of upcoming construction activities both at the dam site and in other project areas, including potential impacts and duration.</p> <p>The bulletins are posted to the project website and sent to 7,084 public email subscribers, media, local and regional government contacts and other internal and external stakeholders.</p> <p>In the fourth year of construction, 26 construction bulletins were sent out and posted online (note, reporting period is July 1, 2018 – June 30, 2019).</p> <p>Please see Appendix D for more information.</p>
Letters, emails and mailings	BC Hydro will send notices by mail prior to the commencement of any work in close proximity of homes and/or businesses, as appropriate	<p>Construction notification items were sent by mail, email, as well as delivered via door-to-door drop to directly-impacted residents, as needed.</p> <p>In the reporting period, seven construction notification items were provided directly to residents and/or stakeholders.</p> <p>Four quarterly construction notification letters were sent to Indigenous groups and local governments. These letters are also posted on the Site C website.</p> <p>Please see Appendix E for more information.</p>
Information Materials	BC Hydro will develop public information materials on the construction phase, including an updated brochure, fact sheets and backgrounders	<p>In the past year, a variety of information materials was developed and shared with the public email distribution list (8,600+ subscribers), posted to the project website and distributed to local stakeholders and Indigenous groups, as appropriate.</p> <p>Please see Appendix F for more information.</p>

Construction Communications Annual Report
Site C Project

Media Relations	BC Hydro will inform local media outlets of key construction activities as part of its information and notification program.	<p>The biweekly construction bulletin and the monthly employment statistics are shared with media outlets.</p> <p>In addition, 18 news releases, information bulletins and public advisories were issued about key construction and procurement milestones and construction-related information (e.g., boater advisories).</p> <p>Please see Appendix G for more information.</p>
Social Media	BC Hydro will use social media networks, such as Twitter, to inform and notify key audiences about construction activities	<p>The Site C Twitter account was used during the reporting period.</p> <p>The account currently has 1,169 followers.</p> <p>Please see Appendix H for more information.</p>
Signage	Appropriate signage will be placed at construction sites for the project, as well as on public roads and highways where construction activities are taking place	<p>Signage at the dam site gates identifies the project and provides contact information for the project team. In addition, signage is used as necessary to identify active work areas and enhance public safety.</p> <p>No appendix is required for this section.</p>
Advertising	BC Hydro will advertise in local and regional media outlets to inform and notify key audiences about construction-related activities, prior to the start of work, as appropriate.	<p>The project advertised as needed to notify the public and stakeholders about construction work, safety programs and permit applications.</p> <p>Moving forward, advertising will be used to notify key audiences of events, meetings and construction-related activities, such as changes to Peace River navigation, as appropriate.</p> <p>Please see Appendix L for more information.</p>

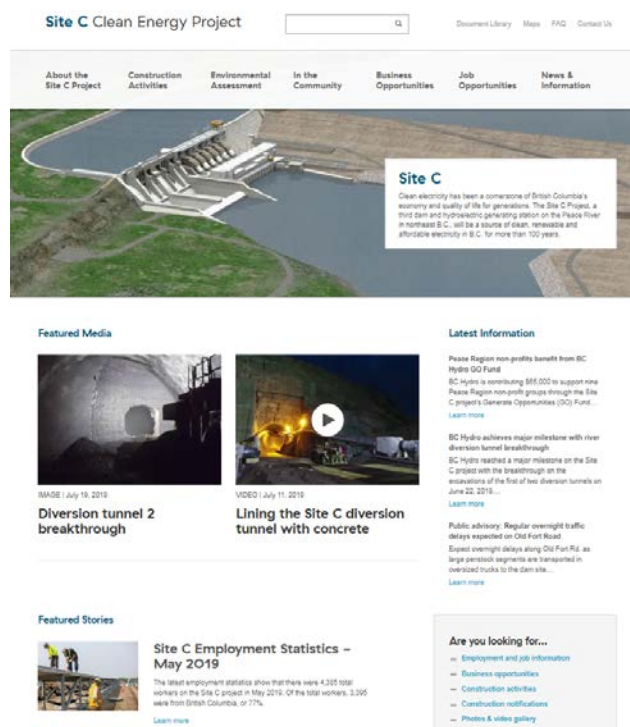

Community Relations Activities		
Activity or Tool	Purpose	Status During the Reporting Period (July 2018 – June 2019)
Community Consultation Offices	The project's community consultation offices are located in Fort St. John and Hudson's Hope. The offices will continue to be staffed throughout the construction phase to provide a location where the public can get information about the project, ask questions and submit feedback.	The Community Consultation Office in Fort St. John is open for meetings by appointment. No appendix is required for this section.
Neighbourhood Meetings	As appropriate, BC Hydro will meet with property owners in the vicinity of construction activity, prior to the work commencing, to provide information about schedule, work hours and activities. The meetings will also provide an opportunity to answer questions and hear feedback or concerns.	No neighbourhood meetings were held during this period. Please note that the Site C properties team did meet with impacted property owners as required. No appendix is required for this section.
Open Houses, Community Events and Presentations	BC Hydro will hold public information meetings to provide information about Site C construction activities, including schedule, impacts and duration of work. The meetings will also provide an opportunity for BC Hydro to answer questions, gather feedback and hear about concerns.	The Site C team and its contractors participated in a variety of events and provided public presentations. Two open houses were held during this reporting period. Please see Appendix I for more information.
Council Presentations and Meetings	Project team representatives will continue to provide updates to local and regional government councils on major project milestones and construction-related activities.	The Site C team provided several council presentations. The Site C team participated in a number of local government events. Please see Appendix J for more information.
Community Liaison Committees	During the construction phase, BC Hydro will establish Community Liaison Committees. The Committees will provide an opportunity to BC Hydro to keep communities informed of project activities, as well as to answer questions and hear about concerns.	Three Regional Community Liaison Committee meetings were held during this period. Please see Appendix K for more information.

Appendix A. Project Website

The project website (www.sitecproject.com) was frequently updated over the course of the fourth year of construction. Updates include information about construction activities, procurements, business opportunities, employment, as well as maps, reports, permits and authorizations.

Specific updates include:

- Regular updates to the [Construction Activities](#) page.
- Regular updates to the [Construction Photo and Video Gallery, including drone video.](#)
- A new Highway 29 realignment section.
- An updated [Information Sheets](#) section.
- A frequently updated [News and Information](#) section that includes construction-related information, information on project milestones, procurement information and project updates (e.g., burning advisories).
- An updated [Document Library](#), including:
 - [Environmental Management Plans and Reports](#)
 - [Environmental Orders](#)
 - [Permits and Authorizations](#)
 - [Quarterly Progress Reports to the BCUC](#)
 - [Construction Contracts](#)
 - [Employment Statistics](#)

Screen capture: www.sitecproject.com

Appendix B. Public Enquiry Program

Public enquiries can be provided to the Site C project team by toll-free phone line, email, an online feedback form, by fax and in person at events and at the Fort St. John Community Consultation Office (by appointment).

The Site C communications team monitors all communications channels (listed above) and tracks, reviews and responds to all public enquiries.

Please see the next several pages for a breakdown of enquiries, including topic area and channel.

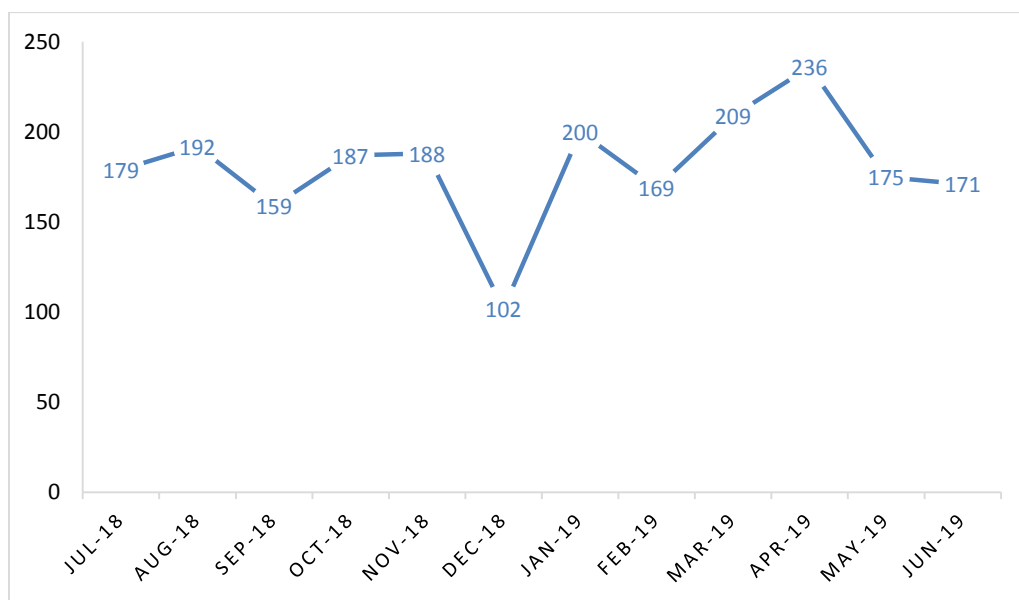

BC Hydro Site C Public Enquiries Report
July 2018 – June 2019

Please find below the **Public Enquiries Report** for the period of **July 1, 2018 – June 30, 2019**.

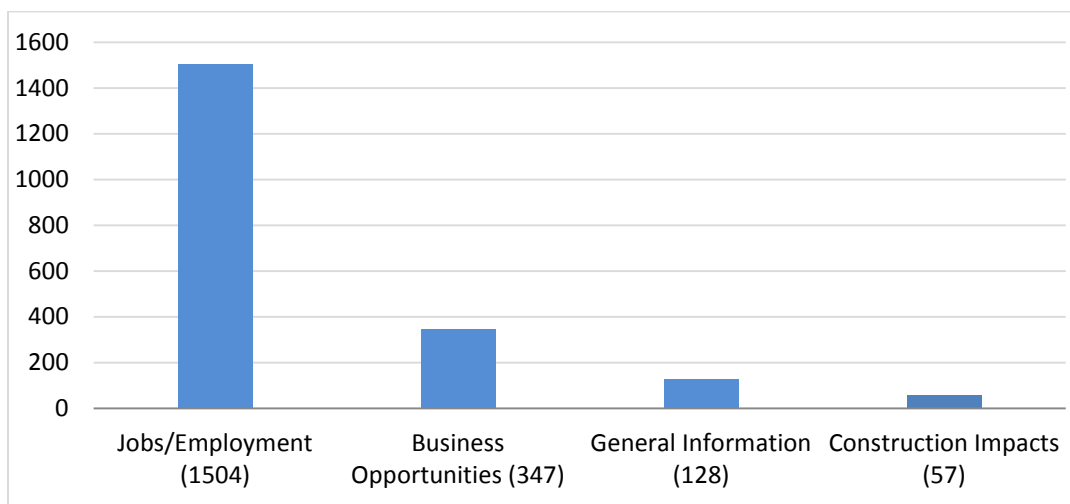

- **2,167 total enquiries were received between July 2018 – June 2019**
- Of these, the **top enquiry topics** were:
 - 1) **Jobs/Employment: 1504 enquiries (69%)**
 - 2) **Business Opportunities: 347 (16%)**
 - 3) **General Information: 128 (6%)**
 - 4) **Construction Impacts: 57 (3%)**

Mail	4	0.2%
In Person – Construction Site	4	0.2%
In Person – Consultation Office	1	0.1%

Appendix C. Construction Bulletins

Regular, biweekly construction bulletins are produced. They provide a two-week look ahead of upcoming construction activities, including potential impacts and duration.

The bulletins are posted to the project website and sent to 7,200+ public email subscribers, media, local and regional government contacts and other stakeholders.

In the reporting period, 26 construction bulletins were sent out and posted online.

All files can be found here: <https://www.sitecproject.com/construction-activities/construction-bulletins>.

Appendix D. Letters, emails and mailings

Letters, emails and mailings are used to provide information about construction activities that may impact a small area or specific group of residents. During the fourth year of construction, items were sent by email and delivered by door-to-door drop. Information items were also shared with Indigenous groups and local government contacts, as appropriate.

- On **July 30, 2018**, a [letter describing upcoming clearing work](#) in the reservoir area was sent to local governments, Indigenous groups, recreation groups, and the general public.
- On **October 3, 2018**, a [letter was sent regarding access road work](#) and reservoir clearing in the Old Hope Road area. The letter was sent to nearby residents and local government.
- On **January 21, 2019**, a letter was sent to nearby residents and local government regarding the [construction of the 85th Avenue Industrial Lands conveyor corridor](#).
- On **April 2, 2019**, a construction update letter was sent to nearby residents and local government regarding the [85th Avenue Industrial Lands conveyor corridor](#).
- On **April 9, 2019**, a construction update was sent to nearby residents and local government describing [construction activities on Highway 29 at Halfway River](#).
- On **April 9, 2019**, a construction update was sent to nearby residents and local government describing [construction activities on Highway 29 at Cache Creek](#).
- On **April 17, 2019**, a letter was sent to residents near Old Fort Road and local government about [overnight penstock deliveries](#).
- In addition, construction notification letters are produced quarterly. They provide an overview of construction activities that can be expected over the course of the quarter (three-month period). They are emailed to Indigenous groups and local governments and posted on the Site C website.
 - [June 2019](#)
 - [March 2019](#)
 - [December 2018](#)
 - [September 2018](#)

Appendix F. Information Materials

A variety of information materials was developed in the past year. These items are distributed using a variety of methods, including posting to the project website and distribution by email to the public, local stakeholders and Indigenous groups, as appropriate.

These include:

- **Information Sheets:** 15 new or updated information sheets were posted to the project website. They are available here: <https://www.sitecproject.com/news-and-information/information-sheets>.
- **Schedule:** the project updated the preliminary construction schedule. This schedule has been posted to the Site C website. It is available here: <https://www.sitecproject.com/construction-activities/construction-schedule>.
- **Field work summary:** the 2019 field work summary has been posted to the Site C website. It is available here: <https://www.sitecproject.com/news-and-information/field-work-notice>.
- **Photos and video:** more than 80 photos, three drone videos, one construction video, and four project videos were posted to the Site C website during this reporting period. They are available here: <https://www.sitecproject.com/construction-activities/photo-and-video-gallery>.

Appendix G. Media Relations

The biweekly construction bulletin is shared with media outlets.

In addition, news releases and information bulletins on a variety of topics were issued throughout the fourth year of construction, including:

- Key contract awards and procurement information
- Construction milestones like the breaking through the final rock wall of the the diversion tunnels
- Public safety advisories
- Information about community benefits and project mitigation measures
- Site C updates regarding construction, employment statistics or other relevant information

All releases, bulletins and advisories are available here: <https://www.sitecproject.com/news-and-information>.

Where appropriate, the information is also issued by email to the Site C public email distribution list (8,600+ people).

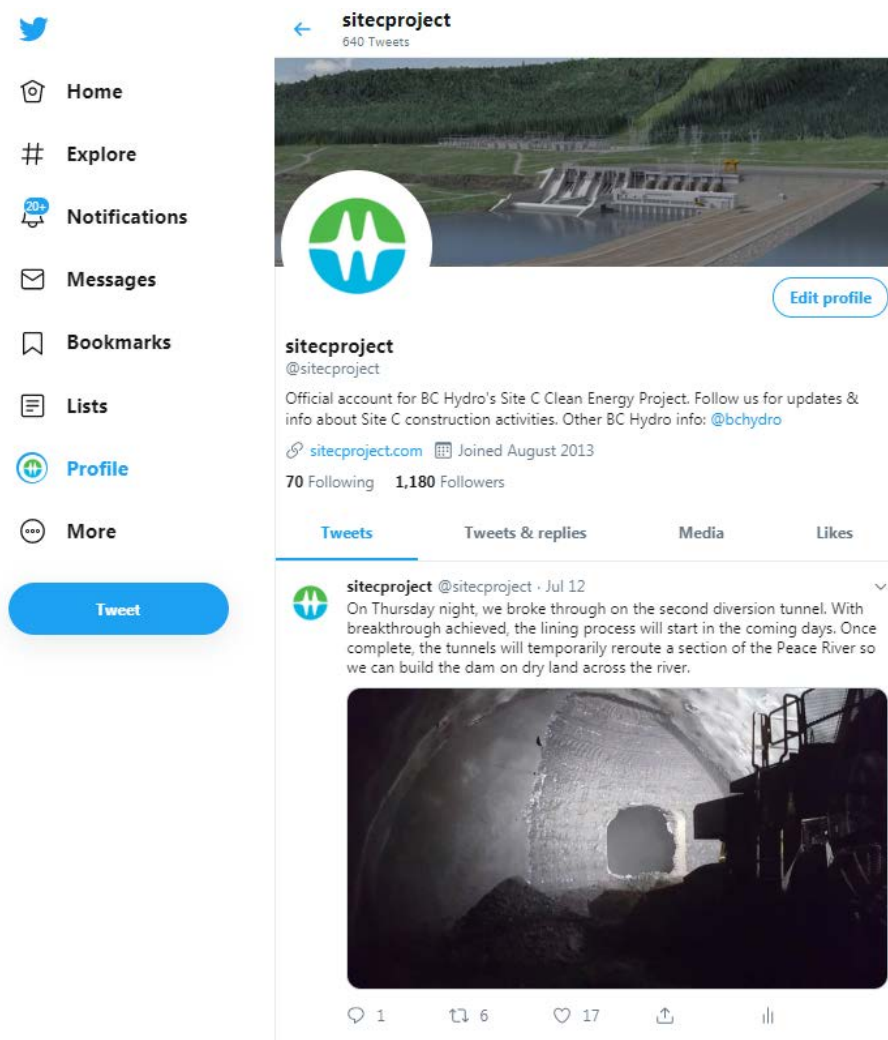

Appendix H. Social Media

During the reporting period, the [@sitecproject](#) Twitter account posted 120 tweets.

Topics included:

- Construction milestones
- Videos and photography of the project
- Operational updates
- Indigenous and community engagement

The account currently has over 1,178 followers.

Appendix I. Open Houses, Community Events, Presentations and Tours

Open Houses

- 1) **October 30, 2018** Jackfish Lake Road Open House – display boards available [online](#)
- 2) **June 12, 2019** Hudson's Hope Open House – display boards available [online](#)

Community Events

- 1) **January 22 - 24, 2019** BC Natural Resource Forum in Prince George, with a Site C display booth
- 2) **April 4 – 6, 2019** CKNL Annual Trade Show, with a Site C display booth
- 3) **May 22 – 24, 2019** Minerals North Conference in Chetwynd, with a Site C display booth
- 4) **May 7-10, 2019** Williams Lake, North Central Local Government Association AGM
- 5) **June 20, 2019** Fort St. John, National Indigenous Peoples Day event
- 6) **July 24, 2019** Fort St. John, Indigenous Employment Information Day

Presentations and Tours

- 1) **July 16, 2018** Fort St. John, Indigenous Employment and Training tour
- 2) **August 21, 2018** Fort St. John, Ernest & Young tour
- 3) **July 11, 2018** Burnaby, Translink presentation
- 4) **September 19, 2018** Fort St. John, Regional Community Liaison Committee tour
- 5) **September 19, 2018** Fort St. John, Prince George Nechako Aboriginal Employment and Training Association tour
- 6) **October 9, 2018** Fort St. John, Mount Christian School Dawson Creek tour
- 7) **November 1, 2018** Fort St John, Worksafe BC Regional Staff tour
- 8) **November 15, 2018** Fort St. John Metis Nation British Columbia tour
- 9) **November 22, 2018** Fort St. John, RE/MAX tour
- 10) **January 8, 2019** Fort St. John, MoveUP Union tour
- 11) **January 14, 2019** Chetwynd, Chetwynd Chamber of Commerce Board presentation
- 12) **January 26, 2019** Fort St. John, Western Canadian Properties Group presentation
- 13) **February 21, 2019** Chetwynd, Chetwynd Chamber of Commerce presentation
- 14) **February 26, 2019** Dawson Creek, Dawson Creek and District Chamber of Commerce presentation
- 15) **March 12, 2019** Fort St. John, Fort St. John Chamber of Commerce Board presentation
- 16) **March 14, 2019** Dawson Creek, Dawson Creek Secondary School Career Fair presentation
- 17) **March 26, 2019** Fort St. John, McLeod Lake Indian Band Elders tour

Construction Communications Annual Report
Site C Project

- 18) **April 24, 2019** Fort St. John, School District 60 tour
- 19) **May 22, 2019** Fort St. John, MLA Davies and Liberal Caucus tour
- 20) **May 22, 2019** Fort St. John, Auditor General of BC tour
- 21) **May 31, 2019** Fort St. John, Bonneville Power Administration tour
- 22) **June 6, 2019** Fort St. John, Fort St. John Hospital Foundation tour
- 23) **June 13, 2019** Fort St. John, McLeod Lake Indian Band Chief and Council tour
- 24) **June 14, 2019** Fort St. John, Enbridge/North River Midstream tour
- 25) **June 14, 2019** Fort St. John, Blueberry River First Nation tour
- 26) **June 18, 2019** Fort St. John, MNP Accounting tour
- 27) **June 22, 2019** Fort St. John, Canadian Forces Joint Task Force Pacific Regional Liaison Program tour
- 28) **June 25, 2019** Fort St. John, Doig River First Nation tour
- 29) **June 26, 2019** Fort St. John, BC Utilities Commission tour

Peace River Hydro Partners, Site C's main civil works contractor, participated in the following events:

- 1) **September 14, 2018** Fort St. John, Senior Care Foundation
- 2) **September 15, 2018** Fort St. John, United Way Firetruck Pull
- 3) **September 30, 2018** District of Hudson's Hope, summer youth camps
- 4) **November 16, 2018** Fort St. John, Charlie Lake Elementary School roadheader presentation
- 5) **May 2019** Fort St. John, Spark Conference for Women in Leadership
- 6) **May 31, 2019** Fort St. John, ALS Walk
- 7) **June 15, 2019** Fort St. John, Project Heavy Duty

Aecon-Flatiron-Dragados-EBC Partnership (AFDE Partnership), Site C's generating station and spillways contractor, participated in the following events:

- 1) **December 7, 2018** Fort St. John, 36th Annual Seniors Supper, Fort St. John Kin Club
- 2) **February 22-24, 2019** Fort St. John, 2019 Crystal Cup Hockey Challenge
- 3) **March 14, 2019** Fort St. John, job fair
- 4) **March 16, 2019** Fort St. John, Irish Dance Society – St. Paddy's Day 5K Run
- 5) **May 10, 2019** Fort St. John, Community Futures 2019 Junior Dragon's Den
- 6) **May 15-16, 2019** Fort St. John, Spark Women's Leadership Conference
- 7) **June 14-16, 2019** Fort St. John, 8th Annual Arnie Isberg Memorial 1-Pitch Softball Tournament

Appendix J. Council Presentations and Meetings

The Site C team provided or participated in the following presentations to city or district councils or boards:

- 1) **September 6, 2018** Prince George, McLeod Lake Indian Band Working Group and Site C Implementation Committee
- 2) **November 16, 2018** Fort St. John, Peace Williston Advisory Committee
- 3) **November 20, 2018** Prince George, McLeod Lake Indian Band Working Group and Site C Implementation Committee
- 4) **January 17, 2019** Fort St. John, MLA Davies
- 5) **February 22, 2019** MacKenzie, Peace Williston Advisory Committee
- 6) **February 26, 2019** Prince George, McLeod Lake Indian Band Joint Working Group and Site C Implementation Committee
- 7) **March 12, 2019** Fort St. John, GO Fund Meeting
- 8) **April 29, 2019** Prince George, McLeod Lake Indian Band Working Group and Site C Implementation Committee
- 9) **May 28, 2019** MacKenzie, Peace Williston Advisory Committee
- 10) **June 11, 2019** Fort St. John, GO Fund Meeting
- 11) **June 17, 2019** Chetwynd, Chetwynd Council presentation
- 12) **June 17, 2019** McLeod Lake, McLeod Lake Indian Band elders presentation

Appendix K. Regional Community Liaison Committee

A Regional Community Liaison Committee (RCLC) was created and provides a forum for BC Hydro and elected officials to share information and discuss community interests, enquiries and potential benefits related to the project.

BC Hydro established the RCLC during project construction to foster dialogue between BC Hydro, Peace Region local governments and Indigenous groups. The RCLC provides awareness of construction activities, construction schedules, local interests (including procurement and employment opportunities), enquiries and concerns, and encourages participation and input from RCLC representatives. The RCLC acts as an advisory committee to BC Hydro.

Meetings were held in Fort St. John on the following dates:

- 1) November 28, 2018**
- 2) March 13, 2019**
- 3) June 19, 2019**

Appendix L. Advertising

The Site C project advertised to notify the public about upcoming construction work, safety programs and permit applications, as needed:

- **July 12, 2018 and July 19, 2018:** Ads were placed in the Alaska Highway News regarding BC Hydro's Notice of Intention to Apply for a Disposition of Crown Land for application 8016003.
- **July 18, 2018:** An ad was placed in the Coffee Talk Express regarding BC Hydro's application for an amendment to Environmental Assessment Certificate #E14-02 for the West Pine Quarry.
- **July 19, 2018:** An ad was placed in the Alaska Highway News regarding BC Hydro's application for an amendment to Environmental Assessment Certificate #E14-02 for the West Pine Quarry.
- **October 1, 2018:** An ad was placed in the Coffee Talk Express regarding the beginning of construction along Highway 29 at Cache Creek West.
- **October 10, 2018:** An ad was placed in the Alaska Highway News regarding the beginning of construction along Highway 29 at Cache Creek West.
- **October 25, 2018 and November 1, 2018:** An ad was placed in the Alaska Highway News regarding BC Hydro's Notice of Intention to Apply for a Disposition of Crown Land for application 8016041.
- **November 1, 2018 and November 8, 2018:** An ad was placed in the Alaska Highway News regarding BC Hydro's Notice of Intention to Apply for a Disposition of Crown Land for application 8015857.
- **April 25, 2019:** An ad was placed in the Alaska Highway News regarding BC Hydro's Notice of Intention to Apply for a Disposition of Crown Land for application 8016070.
- **June 1, 2019:** An ad was placed in the Hudson's Hope Bulletin to invite residents to an open house on Site C construction.
- **June 13, 2019:** An ad was placed in the Alaska Highway News regarding BC Hydro's application to amend EAC #E14-02, to allow for changes to the Highway 29 alignment of Cache Creek/Bear Flat.
- **June 18, 2019:** An ad was placed in the Coffee Talk Express regarding BC Hydro's application to amend EAC #E14-02, to allow for changes to the Highway 29 alignment of Cache Creek/Bear Flat.
- **June 20, 2019:** An ad was placed in the Alaska Highway News regarding BC Hydro's Notice of Intention to Apply for a Disposition of Crown Land for application 8016074.

The ad tear sheets are included in the following pages.

Please use caution along the Site C project transmission line corridor

The Site C project is starting work in the 75-kilometre transmission line corridor between the Site C dam site and the Peace Canyon Dam. Safety is our top priority and BC Hydro is asking hunters and trappers to use caution along this corridor.

Please watch for signs that indicate active work areas and do not hunt or shoot in areas where construction could be occurring.

DEVELOPMENT OF AN INTEGRATED
PEST MANAGEMENT PLAN

Reference #105-701-18/23

Tourmaline Oil Corp. is developing an Integrated Pest Management Plan (IPMP) under British Columbia's Integrated Pest Management Act and associated regulations.

The purpose of this renewal is to manage vegetation and invasive weed control on facilities, rights-of-way, lease sites and related infrastructure. This IPMP will cover various activities within the Peace River Regional District and associated communities such as Fort St John, Dawson Creek, Hudson Hope, Chetwynd, Wonowon, and other small communities in those regions.

Using the principles of integrated pest management plan (IPM), the pest management methods proposed for use may include seeding, re-vegetation, hand-pulling/cutting, mowing, string trimmers, brushing, biological control agents, and the use of herbicides. The common names and some example(s) of trade names of the herbicides proposed for use under this plan include:

- Vantage XRT, VP480, Clearview, Milestone, Navius VM, Escort, Tordon 22K, Banvel VM, MCPA Amine 600, Truvist, Esplanade SC, Transline, Lontrel 360, Garlon, Arsenal.
- Active ingredients are: Aminopyralid, metsulfuron-methyl, diflufenzopyr, MCPA, Picloram, Chlorsulfuron, Dicamba, Aminocyclopyrachlor, Indaziflam, Clopyralid, Glyphosate, Triclopyr.

The proposed duration of the IPMP is from May 1, 2018 to April 30th, 2023.

Maps and the draft IPMP document are available and may be viewed upon request by phoning at the following address or by contacting the agent:

Tourmaline Oil Corp. 9920 – 98A Ave. Fort St. John, BC V1J 1S2 Phone 250-262-2033

Agent: E-Qwest Consulting Ltd. 250-766-2677 email – e-qwest@shaw.ca

Any person wishing to contribute information about a proposed treatment sites, relevant to the development of this IPMP may send copies of the information to the address above within 30 days of the publication of this notice.

OBITUARIES

OBITUARIES

OBITUARIES

LANGEVIN, Gary J.
July 27, 1944 – December 24, 2017

Our beloved Gary left us after a short but hard fought battle with cancer. Gary is survived by his wife Joan of Big Valley, AB his son Shawn of Fort MacMurray, AB, and daughter Charlane of Saskatoon, SK, five grandchildren, Brandon, Katlin, Ashley, Kaylee, and Lindsey and two great grandchildren Sophia, and Vera Lynn. Gary is also survived by his siblings Ron (Marlene), Elaine, Mary Jane, Phillip, and Michael (Arlene) and his step sons Robbie (Lisa) and Ryan (Kristi), plus five step grandsons, Carter and Parker and Ethan, Aiden, and Kristian, as well as numerous nieces and nephews.

Gary's working career was spent almost entirely with the BC Forest Service in various capacities. A career that spanned nearly 33 years, most of it spent at Fort St John. After Gary left the Forest Service, he followed his heart and his love of the mountains, and went guiding for a few years. He then moved on to some oilfield work, and put his love of "butchering wood", as he put it, to good use, building for a few years.

Throughout his life, Gary's absolute passion and joy remained his beloved Quarter Horses; his prized Blue Roans were the pinnacle of his breeding program.

When Gary met Joan he moved with his horses to Big Valley, AB where he continued to breed his good Blue Roans. Gary and Joan married on July 1st, 2016 in the Grand Canyon, and were so looking forward to many more adventures after Joan's retirement this year.

Donations in Gary's name may be made to the BC or AB chapters of the Wild Sheep Foundation.

No service by request.

Advice from a Hire Authority

When it comes time to hire new staff, do you look forward to the hours upon hours that it takes? Time to place an ad, time to read through dozens of resumes, time to interview candidates, time to test their skills...

Hire us first

At Macenna Staffing Services we can do all that for you and then some, saving you and your business time by short-listing the top candidates for the job; pre-screening only those that qualify. Plus we can test typing skills and computer aptitude with programs like Word, Excel, even Windows itself.

And did we mention we already have hundreds of resumes on file?

The next time you're hiring, consider Macenna Staffing Services first.

WERHUN, Dale Steven
January 1, 2018

It is with heavy hearts that Dale Steven Werhun, Fort St. John, BC passed away unexpectedly on January 1, 2018, at the age of 68 years.

Dale was a longtime resident of FSJ. When he was out in the community he always knew someone to chat briefly with. He had an entrepreneurial spirit. At age 17, he owned his first of many residential lots in FSJ. He later became a certified electrician and owned and operated several small businesses.

He will be truly missed by friends, family and those dear to him. It is with great thanks to those who looked out for him over the years when he needed you the most.

Survived by his sister Dianna (Henning), Camron, Craig, and Erin of Grande Prairie and sister Carrol of Clearwater.

Special people in his life: Joel Pomeroy, Helena and 2 girls of Poland, Cheryl of Kelowna, and Paula and Jeanne of California.

Making good people easy to find.

Looking for a new opportunity? Submit your resume today!

Receptionist - Do you enjoy working in a busy environment? Do you have excellent organizational and time management skills? If so, this may be the opportunity you have been waiting for! Our clients are currently looking to hire a full-time receptionist/pre-test assistant in Fort St John, BC. Some duties for this position include; answering phones, making appointments, taking payments, and assisting staff with pre-testing.

CAMP COOK/ATTENDANT- Are you interested in working in a small camp that requires a professional cook/attendant that delivers with pride. A steady well-paying position with benefits, you will enjoy a schedule of 2 weeks on and 2 weeks off year round allowing time for summer/winter enjoyment. We will provide transportation to and from camp from Fort St John. Cooking and housekeeping for a small group of nice people (3-20) in a clean camp. Preference will be given to those with camp experience but if you can deliver top notch meals and spotless cleaning we would like to hear from you. This is a general recruitment Ad; We will keep your resume on file for future consideration if all current positions are filled.

Requirements:
Must be able to provide a well balanced pre-planned menu, have OFA I, Foodsafe, and WHMIS.

If you think you're a fit for any of our listed positions, please email us your resume with 3 work related references today!

MACENNA
staffing services

Making good people easy to find.

Advice from a Hire Authority

When it comes time to hire new staff, do you look forward to the hours upon hours that it takes? Time to place an ad, time to read through dozens of resumes, time to interview candidates, time to test their skills...

Hire us first

At Macenna Staffing Services we can do all that for you and then some, saving you and your business time by short-listing the top candidates for the job; pre-screening only those that qualify. Plus we can test typing skills and computer aptitude with programs like Word, Excel, even Windows itself.

And did we mention we already have hundreds of resumes on file?

The next time you're hiring, consider Macenna Staffing Services first.

DEVELOPMENT OF AN INTEGRATED PEST MANAGEMENT PLAN
Reference #2018-2023 IPMP Renewal

Canlin Energy Corp. is revising their current Integrated Pest Management Plan (IPMP) under British Columbia's Integrated Pest Management Act and associated regulations. Under these regulations this plan is required to be renewed every five years.

The purpose of this renewal is to manage vegetation and invasive weed control on facilities, rights-of-way, lease sites and related infrastructure. This IPMP will cover various activities within the Peace River Regional District & Northern Rockies Municipality and proximity to communities such as Fort St John, Dawson Creek, Fort Nelson, Wonowon, and other small communities in those regions.

Using the principles of integrated pest management (IPM), the pest management methods proposed for use may include seeding, re-vegetation, hand-pulling/cutting, mowing, string trimmers, brushing, biological control, and the use of herbicides by ground application. Trade names of the herbicides proposed for use under this plan may include:

- Vantage XRT, VP480, Clearview, Navius VM, Escort, Tordon 22K, Banvel VM, MCPA Amine 500, Truvist, Esplanade SC, Transline, Lontrel 360, Arsenal Powerline.
- Active ingredients: Aminopyralid, metsulfuron-methyl, diflufenzopyr, MCPA, 2,4-D, Picloram, Chlorsulfuron, Dicamba, Aminocyclopyrachlor, Indaziflam, Clopyralid, Glyphosate, Imazapyr.

The proposed term of the IPMP is 5-years from May 20, 2018 to May, 19th, 2023.

A draft copy of IPMP document is available and may be viewed upon request by contacting the applicant or agent below:

Applicant:
Canlin Energy Corp.
2600, 237-4th Ave. SW
Calgary, AB T2P 4K3

Upcoming transmission line works for the Site C project

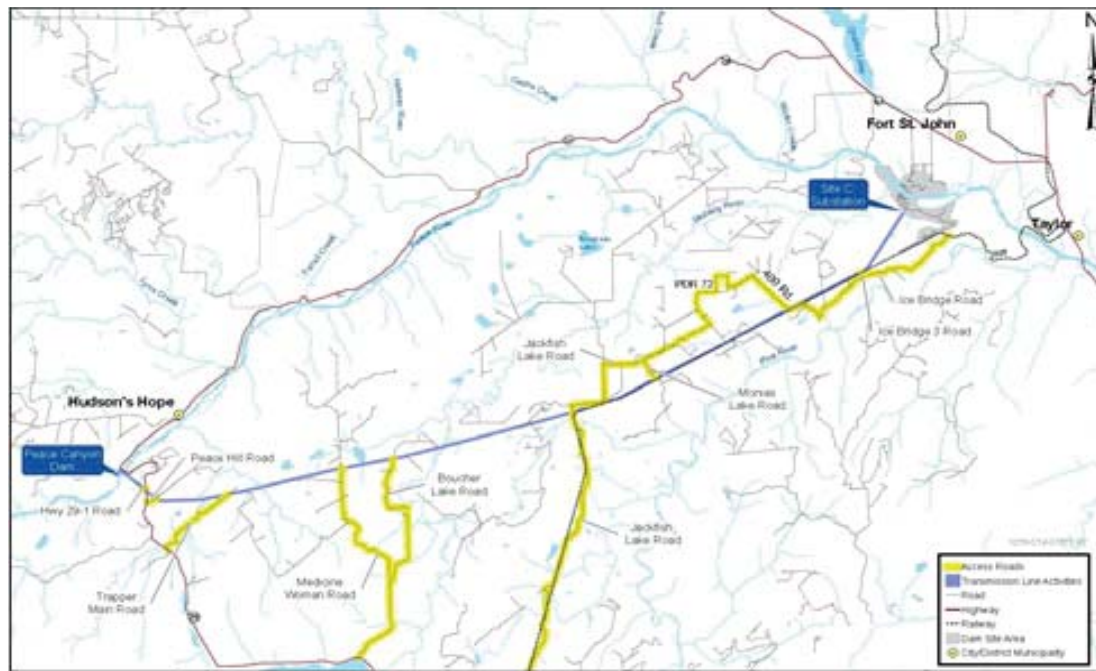

Upcoming transmission-related work in the Chetwynd area will include the set up of a marshalling yard, equipment mobilization and the start of transmission line construction. Clearing and access road construction will take place later this year. Please watch for signs that indicate active work areas and do not hunt or shoot in areas where construction could be occurring. Visit the Site C website for more information and a construction timeline.

What to expect

- Continued vehicle traffic on existing access roads and local roads, including Jackfish Lake Road and Boucher Lake Road.
- Delays and/or temporary access restrictions may occur on access roads.
- A marshalling yard will be set up at Moberly Lake to support transmission line construction.
- Some noise will occur as a result of the scheduled construction activities.

For more information

- Visit the project website: sitecproject.com
- Call the toll-free project line: 1-877-217-0777
- Email the project team: sitec@bchydro.com

Restorative Justice: Reclaiming the dignity of the human spirit

Fort St. John invests in Restorative Justice. The North Peace Justice Society offers first-time offenders programs that center on youth mentorship and positive role modeling, exploring the negative effects of one's choices, and how to make more informed choices in the future to redirect youth that have become lost in terms of their choices. Restorative Justice seeks to make things right. Conversely, Retributive Justice seeks only punishment and vengeance as justice. Restorative Justice seeks to understand what social breakdown formed the character of the accused and, where there is injury, emphasizes collective responsibility, forgiveness, and reconciliation between all parties. St. Thomas Aquinas wrote of Restorative Justice in the

Angela Griffin
PEACE REFLECTIONS

thirteenth century. Aquinas viewed retribution as an immoral act beneath the dignity of the person seeking vengeance and the individual awaiting punishment. Aquinas favoured Prospective Justice, the forbearer of Restorative Justice, which aimed at promoting the future good as it restored the human spirit presently torn down. In the book of Genesis, after the fall of Adam and Eve, evil spread throughout the lives of God's people. Abel murdered Cain, his own brother. Lamech paid back any wrong done unto him seventy-seven times. An

out-of-control narcissist, his vengeance knew no boundaries. Lex talionis, or the 'law of giving back' from the book of Exodus (21: 23-25) states 'an eye for an eye, and a tooth for a tooth'; however, this law was actually a humanitarian principle. It limited vengeance by letting the punishment fit the crime and no more. Christ views vengeance as heartless and pitiless. He tells His followers to be generous of spirit and in nature. When another does wrong, be princely and kind in return, says Christ. When they make demands that they have no right to make, offer them even more in return. People of faith are called to view all through a lens of compassion. They must contribute to the rehabilitation of offenders, facilitating their transition from despair to hope and from unreliability

to dependability. The only way through disputes is to foster humane resolutions to crime and conflict. Christians are called to live by heart and head, and to pardon others as their own transgressions are pardoned. In the parable of the Prodigal Son, much has been written with regards to the prodigal's wickedness. The very word 'prodigal' means extravagant and reckless. Yet, the elder brother's sins are far greater than that of the younger brother whose sin is his misspent youth. It is he who suffers most from his own thoughtless behavior. The older brother, envious of the younger, refuses to rejoice in his brother's awakening and homecoming. He tells his father, "All these years I've been slaving for you and never disobeyed your orders. Yet you never gave me even a young goat so I could celebrate with

my friends. But when this son of yours who has squandered your property with prostitutes comes home, you kill the fattened calf for him!" (Luke 15:29-30). He denies his blood, referring to his brother only as 'his father's son'. He wants his father to banish his younger brother, but this his father will not do. Rather, his father embraces his second son just as God, the Father runs to greet us with open arms each time we seek to return to the mantle of His love. God offers Restorative Justice when we seek His mercy. We are called to offer the same to those seeking renewal and forgiveness.
The Peace is a place of many peoples and faiths. In this space, readers are invited to share their own reflections of faith in the Peace. If you have a story of faith you'd like to share, email angelamarygriffin@gmail.com.

Application to Amend Environmental Assessment Certificate, #E14-02, for the Site C Clean Energy Project

Invitation to Comment

BC Hydro, (the "Certificate Holder") has submitted an application for an amendment of the Environmental Assessment Certificate (EAC) #E14-02 for the Site C Clean Energy project (the "Project"), issued on October 14, 2014, and amended on June 22, 2018 under the *Environmental Assessment Act*.

The Project is located approximately 5 km southwest of Fort St. John, BC. The Project is made up of an earthfill dam along with the associated generating station, spillways, reservoir, substation, transmission lines, and Highway 29 realignments.

The application for amendment is focused on changes to the source of quarry and excavated materials used in some aspects of construction. The following change is proposed:

- Revisions to allow for West Pine Quarry as a potential additional source of quarry and excavated material for the construction of:
 - Highway 29 Realignment
 - Hudson's Hope shoreline protection
 - Other areas along the reservoir requiring protection during reservoir filling

The public comment period is 30-days. During this period, the public is invited to submit concerns regarding *new* or *additional* adverse impacts that might result from the proposed amendment.

The intention of seeking public comments is to ensure that all potential effects – environmental, economic, social, heritage and health – that might result from the proposed changes are identified for consideration as part of the amendment process.

The comment period will begin on July 30, 2018, and conclude on August 29, 2018. All comments within the scope of the application for amendment will be considered as part of EAO's review.

The Decision Statement under the *Canadian Environmental Assessment Act*, 2012, issued by the federal Minister of Environment and Climate Change on November 25, 2014, contains conditions regarding BC Hydro's obligations in regard to the Project. The Canadian Environmental Assessment Agency will consider comments received by EAO regarding potential adverse environmental effects from the proposed project changes and the proposed mitigation measures in the context of the Decision Statement.

Decision Statement: <http://www.ceaa-acee.gc.ca/050/evaluations/document/100567?culture=en-CA>

EAO accepts public comments through the following ways:

By Online Form: <https://projects.eao.gov.bc.ca/p/site-c-clean-energy/commentperiod/5b4641795229790024209571>

By Mail:

Kim Walters, Project Assessment Manager
Environmental Assessment Office
PO Box 9426 Stn Prov Govt
Victoria BC V8W 9V1

By Fax: Fax: 250-356-2208

An electronic copy of the Certificate Holder's application for amendment is available at:

EAO website:

Certificate Holder website:

www.sitecproject.com

NOTE: All submissions received by the EAO during the comment period in relation to the proposed Amendment are considered public and will be posted to the EAO website.

GENERAL EMPLOYMENT

AltaGas Opportunities at the Ridley Island Propane Export Terminal

Currently AltaGas is constructing a propane export facility that is located approximately 10 km south of Prince Rupert, on Ridley Island. The Ridley Island Propane Export Terminal (RIPET) Facility will receive pressurized liquid propane via rail, which will be transferred to intermediate pressurized storage bullets. The propane will then be chilled, and transferred to refrigerated storage at atmospheric pressure. The cooled propane will be transferred to Very Large Gas Carriers (VLGC) using the existing RTI coal jetty, for transport to Asia and other markets.

AltaGas is looking for motivated individuals who have a strong interest in gas operations, safety culture mindset, and are interested in future employment at the Ridley Island Propane Export Terminal. We are currently recruiting for the following positions:

- Operator Tech 1
- Operator Tech 2
- Operator Tech 3

Incumbents will have a working knowledge of equipment, gas operations, LPG railcar loading/offloading, maintenance and monitoring of facilities under their control. For more information on these positions, and other employment opportunities at AltaGas, please visit www.altagas.ca/careers.

DEVELOPMENT OF A PEST MANAGEMENT PLAN

Application #: TAQA – BC 2013 - 2018

Applicant: TAQA North Ltd., 2100, 308 – 4th Avenue SW, Calgary, Alberta T2P 0H7. Tel: (403) 724-5000, Fax: (403) 724-5001. Attention: Wes Bell, wes.bell@taqa.ca

The purpose of the proposed Pest Management Plan (PMP) is to manage vegetation, including noxious weeds and invasive plants on all land owned leased, and/or controlled by TAQA North Ltd. (hereafter TAQA) for oil and gas production, transmission, distribution and storage within the plan area, including oil and gas wells and associated production facilities, access roads), pipelines and processing plants. These sites are located in proximity to the communities of Fort Nelson, Dawson Creek and Fort St. John. All sites are within the geographic boundaries of the Northern Rockies Regional Municipality and Peace River Regional District.

Using the principles of integrated vegetation management (IPM), the pest management methods proposed for use may include seeding, re-vegetation, hand-pulling/cutting, mowing, string trimmers, deep ripping, caping, brushing (selective slashing), biological control agents, and the use of pesticides. The use of pesticides is intended within the area to which the PMP applies. The common name and some example(s) of trade names of the pesticides proposed for use under this plan include: aminopyralid (Milestone, Restore), clopyralid (Transline), dicamba (Dyvel, Killex, Banvel, Vanquish), glyphosate (Roundup, Roundup Weathermax, Vantage, Vantage Plus, Credit, Touchdown), metsulfuron methyl (Escort, Ally), 2,4-D (2,4-D Amine 500, 2,4-D Amine 600). Application methods include: cut surface, basal bark, injection and foliar.

The proposed duration of the PMP may from March 1, 2013 to March 1, 2018.

A draft copy of the proposed PMP may be examined in detail at:

1. TAQA North Ltd., 2100, 308 – 4th Avenue SW, Calgary, Alberta T2P 0H7,
2. Synergy Aspen Environmental 9904 – 106th Street, Fort St. John, BC V1J 1V8,
3. TAQA North Ltd., 525, 9909 – 102nd Street, Grande Prairie, AB T8V 2V4, or
4. Request a electronic copy by sending an email to: Wes.Bell@taqa.ca

“A person wishing to contribute information about a proposed treatment site, relevant to the development of the pest management plan, may send copies of the information to the applicant at the address above within 30 days of the publication of this notice”.

WILLIAM H. (BILL) SUTTON
Jul 03, 1937 – Jun 27, 2018
Gone Fishing

William Henry Sutton was born on July 3, 1937 in Flin Flon, MB, moving in 1951 with his family to Pitt Meadows, BC. He served for seven years in the Royal Canadian Navy, apprenticing as an Engine Room Artificer (machinist). Later, while living in Merritt, BC, a beautiful young Public Health nurse caught his eye, and he asked her for a date. On July 8, 1967, Bill married Jill Catherine Pattison and they started together a life of much love, many adventures, and lots of laughs.

After completing his Teacher Training at UBC, Bill and Jill travelled, with new daughter Melinda, north to Hudson Hope, where Bill began his teaching career. Son Thomas was born in Chetwynd two years later. (Though Tom was nearly born in the car between H.H. and Chetwynd, as Bill did insist on stopping for a bit on the way to the hospital to admire the beautiful mid-December Northern Lights.) After a transfer to Fort St. John in 1974, he and Jill bought their 25-acre property outside Baldonnel and happily spent the next 41 years there, until making the move into town.

During Bill’s many years working in FSJ, he transitioned from classroom teaching at Doc Kearney and then North Peace Senior Secondary to Special Services where he was instrumental in developing a student apprenticeship program. After retiring, Bill worked with T.R.A.D.E.S. Never one to have fewer than two books on the go, Bill was a valued Library Board member in both Hudson Hope and FSJ.

Sharp to the end, Bill’s brain was the repository of so many wonderful and varied facts that playing Trivial Pursuit with him was a complete bummer, unless, of course, you were on his team. Forever curious and engaged with people and the world around him, lover of hikes, the night sky, floating in any sort of vessel, philosophical and political discussions, world history, and other activities and topics too numerous to list, the gain of that perfect fishing hole in the sky is decidedly our loss.

Left to figure out crossword clues and historical miscellanea on their own are dear wife of 51 years, Jill; lucky kids Melinda (John Downie) of Toronto, ON; and Tom (Jennifer, and grandsons Spencer and Rowan) of Canberra, Australia. Bill is also survived by brothers Brian (Bronwen) of Maberly, ON and Lawrence (Ann) of Whonnock, BC.

Words North

Writers festival a chance to showcase student talent

The 2018 Words North writing festival will showcase regional writers of all ages. On Sunday, September 30, a student reading will be held at the Dawson Creek Public Library. If you are a high school or college student who would like to share your writing, contact Donna Kane at dkane@pris.ca.

Here is a look at just one of our region’s talented young writers who will be reading at this event.

Amy Crandall is a seven-teen-year-old avid reader and novelist born and raised in British Columbia.

She began writing in elementary school, publishing her first story on Wattpad.com at the age of thirteen. With the support of her loved ones and newfound friends on the site, Amy continued to share her thoughts and interests in the form of storytelling.

Before her Wattpad.com days, she was published in *A Celebration of Poets – Summer 2012* (Creative Communication, 2012) for her poem *My Garden*. That experience only drove her desire to further pursue writing. Her first full-

Amy Crandall

length novel, *Delusions*, was a featured story on Wattpad.com, reaching #7 in the mystery/thriller genre, and surpassing 115,000 reads before its publishing.

When she isn’t envisioning a new story plot, Amy can be found camping with loved ones, getting lost in a great read, jamming to her favourite tunes, or giving in to her craving of Timmies’ iced lemonades.

For more information on Words North, visit peaceliardarts.org.

Application to Amend Environmental Assessment Certificate, #E14-02, for the Site C Clean Energy Project

Invitation to Comment

BC Hydro, (the “Certificate Holder”) has submitted an application for an amendment of the Environmental Assessment Certificate (EAC) #E14-02 for the Site C Clean Energy project (the “Project”), issued on October 14, 2014, and amended on June 22, 2018 under the Environmental Assessment Act.

The Project is located approximately 5 km southwest of Fort St. John, BC. The Project is made up of an earthfill dam along with the associated generating station, spillways, reservoir, substation, transmission lines, and Highway 29 realignments.

The application for amendment is focused on changes to the source of quarry and excavated materials used in some aspects of construction. The following change is proposed:

- Revisions to allow for West Pine Quarry as a potential additional source of quarry and excavated material for the construction of:
 - a. Highway 29 Realignment
 - b. Hudson’s Hope shoreline protection
 - c. Other areas along the reservoir requiring protection during reservoir filling

The public comment period is 30-days. During this period, the public is invited to submit concerns regarding new or additional adverse impacts that might result from the proposed amendment.

The intention of seeking public comments is to ensure that all potential effects – environmental, economic, social, heritage and health – that might result from the proposed changes are identified for consideration as part of the amendment process.

The comment period will begin on July 30, 2018, and conclude on August 29, 2018. All comments within the scope of the application for amendment will be considered as part of EAO’s review.

The Decision Statement under the *Canadian Environmental Assessment Act*, 2012, issued by the federal Minister of Environment and Climate Change on November 25, 2014, contains conditions regarding BC Hydro’s obligations in regard to the Project. The Canadian Environmental Assessment Agency will consider comments received by EAO regarding potential adverse environmental effects from the proposed project changes and the proposed mitigation measures in the context of the Decision Statement.

Decision Statement: <http://www.ceaa-acee.gc.ca/050/evaluations/document/100567?culture=en-CA>

EAO accepts public comments through the following ways:

- **By Online Form:**
<https://projects.eao.gov.bc.ca/p/site-c-clean-energy/commentperiod/5b4641795229790024209571>
- **By Mail:**
Kim Walters, Project Assessment Manager
Environmental Assessment Office
PO Box 9426 Stn Prov Govt
Victoria BC V8W 9V1
- **By Fax:**
Fax: 250-356-2208

An electronic copy of the Certificate Holder’s application for amendment is available at:

EAO website:
<https://projects.eao.gov.bc.ca/p/site-c-clean-energy/docs?folder=1130>

Certificate Holder website:
www.sitecproject.com

NOTE: All submissions received by the EAO during the comment period in relation to the proposed Amendment are considered public and will be posted to the EAO website.

Construction set to begin on new water stations

Construction is set to begin on five new potable water stations throughout Electoral Area B.

The water treatment and bulk loading stations are being built in Buick, Rose Prairie, Feye Spring, Prespatou, and Goodlow starting this month, and work will carry on through to mid-October.

Water will be shut off at the stations for a period of no more than five days, the Peace River Regional District said in a news release Monday.

Advance notice will be provided so residents can make alternative arrangements for water, the district says. Only one station is expected to be down at a time during construction.

The construction schedule is as follows:

- Buick, Rose Prairie and Feye Spring: mid-July to mid-September
- Prespatou and Goodlow: mid-September to mid-October

Construction is being carried out by Bear Mountain Construction of Dawson Creek, which was awarded a \$3.4-million contract in May. Flowpoint was awarded a \$1.5-million contract to supply the water treatment equipment and pre-fabricated buildings last December.

In a referendum held last June, Area B residents voted overwhelming in favour of establishing a potable water function.

The need to convert existing untreated water facilities in the region arose when provincial regulations began requiring all regional districts to provide treated water or no water at all. The district would be liable if contaminated water from a PRRD well causes illness or death.

In November 2015, a similar proposal for potable water services through new property taxes in Areas B, C, and D was defeated by voters.

Northern B.C. food banks to benefit from fresh food fund

Pembina Pipeline Corp. has partnered with Food Banks BC to expand a grant program that will help distribute fresh food to those in need across Northern B.C.

The Fresh Food Fund will distribute \$33,000 to food banks across the region to help buy meat, dairy, and produce from the community.

In Fort St. John, the Salvation Army received a \$4,000 grant, money the organization says will go a long way in supplementing the donations it receives to fill hungry bellies with healthy, wholesome food.

“We are grateful to be able to share a variety of food, and this grant significantly helps to offset the costs of fresh, nutritious food,” said Cameron Eggie, executive director, in a news release.

“Grants like these are especially helpful during the summer months. Summertime donations are typically lower but the demand is still very high.”

Pembina established the fund in Alberta in 2016, and has put nearly \$400,000 into the hands of food banks

across its operations in Western Canada since. The fund is targetted at food banks in rural areas with a population of 100,000 or less.

“We are very excited to be able to offer this grant for the first time ever in B.C., and to help food banks acquire fresh, nutritious, and local food,” said Jeff Spenst, supervisor of Pembina’s Fort St. John district.

“Food is such a basic need, and I can’t think of anything more important than making sure that our friends and neighbours in our communities don’t go hungry.”

Food Banks BC is the provincial association of food banks, which works to address food insecurity and build the resources of food banks operating in the province. Pembina’s expansion of the program into B.C. is welcomed, officials say.

“Fresh, perishable foods are so critical to good health and thanks to the Pembina Fresh Food Fund, food banks will have an opportunity to ensure clients receive nutritious food.” said Laura Lansink, executive director.

2018 CIVIC ELECTIONS

Fort St. John Votes: Meet Lilia Hansen

Lilia Hansen is one of 12 candidates vying for six seats on Fort St. John city council, and an incumbent councillor seeking re-election after winning a byelection in 2017.

Hansen is executive director for the Fort St. John Chamber of Commerce and is seeking a second term after winning a byelection in 2017. Hansen wants to see the city encourage more in-fill development rather than sprawling out, give more tools to the city's economic development team, and keep the public involved in the feedback and consultation loop.

Name: Lilia Hansen
Age: 48
Neighbourhood: Northeast quadrant
Occupation: Executive Director of the Fort St. John & District Chamber of Commerce

1. Why did you decide to run for council?

I want to make a positive impact on my community, today and for the future, and bring the voice of my neighbours to the table. I have the ability to bring concerns and possible solutions to the attention of decision makers by being present at meetings when the average citizen cannot attend personally due to work or other commitments. I meet with business and non-profit organizations regularly. They need someone to help get their message across as to their ideas, wants, and needs.

2. What experience and skills would you bring to council?

Building relationships is one of strengths I've developed as the Chamber's executive director for almost five years, and being a board member for Community Futures – Peace Liard. Seeking input from those in the know (aka the boots on the ground) to compliment the work of city staff is important to cover as many possible issues that may arise. Sometimes the best solution can be the simplest. You need to reach out and get input.

3. What would be your top three priorities if elected, and why?

My top three priorities are economic development, responsible fiscal spending, and quality of life of citizens – accessible and multi-generational. The reasons these are my priorities: You need jobs to keep people in our community and give them opportunities for advancement. Citizens have to be able to afford living here which means budgets and spending has to be reasonable and balanced with average earnings. Quality of life will attract and retain people to Fort St. John. We want families to grow and stay here and we need the services for them to be able to do so.

4. What programs or services should the city spend more on?

Roads, water, and sewer are primary services that should be maintained and new infrastructure installed. We pay a fair dollar in taxes and expect these services to be in good repair. It's not the topic that gets a lot of media attention but they sure are noticed when not in working order.

5. What programs or services should the city spend less on? We all want the city to tighten its belt, spend the minimum amount, or even less then is currently being done. The question should be what are the citizens of Fort St. John willing to do without if they want budgets to come down? It's my understanding that the city cut their budget by encouraging each department to find savings - approximately 10% this year. The city prioritizes its services based on community consultation and feedback. I believe the community should be consulted on all changes to services as the city works for its residents, not the other way around.

6. Would you support raising taxes to support council priorities?

There would have to be a significant gain to the majority of the community to have my support of raising taxes. Priorities of the community should be reflected, not those solely of council.

7. What should the city do to attract new industry and business?

Giving the tools and support to the city's economic development department to work with industry and businesses looking to locate in Fort St. John is important.

Business needs to know the city supports both our current businesses and welcomes new ones. It's important to support our current businesses, not just focusing on attracting new ones. Our current businesses should be shown just as much, or more, co-operation and help to grow their business and stay in business. They've proven they have skin in the game and have invested in our community. If we want to attract new industry and business, we need to gain the reputation for working well with them.

8. What should the city do to stimulate downtown investment?

Work with investors and landlords to fill our vacant commercial spaces, encouragement on in-filling versus building out. The city's official community plan hopes to attract both residents and businesses to the downtown core by blending the use.

9. What has been the city's greatest achievement over the last four years?

Leading the way in ingenuity by building a northern passive house and proving it works in our northern climate, and the micro-hydro power project that pipes treated water from the city's south lagoon wastewater facility to a turbine to generate electricity. The latter project builds on the city's commitment to sustainability, energy efficiency, and conservation.

10. What has been the city's greatest failure over the last four years?

Not getting the message out to more people as to the core reasons for why decisions were made. The city needs to explain the pros and cons of basing their decisions with a lens 20+ years down the road. A decision made without looking forward could be a lost opportunity. The city purchasing land to hold for future school sites is a good example of planning for the future.

11. What's the biggest opportunity facing the city over the next four years?

Working with partners and the provincial government to create more learning spaces and skilled training opportunities in our area, such as the registered nursing program. Our community is growing and we need more schools and services to keep our students in the north, and hopefully then they'll stay and work in the north. Many of our kids go away for advanced education and often put down roots while away. Let's help build our workforce and keep our families in the north.

12. What's the toughest challenge facing the city over the next four years?

Balancing the economy's highs and lows has been a long-time challenge for our community. Indecisiveness and the lack of decisions on the outcome of large projects hurts our neighbours and businesses. People will leave our community, even for less pay, to have some security and stability in another community. Businesses call back employees when work picks up again after they've moved, but they're often told politely to pound sand. Once we've lost a resident it's hard to get them to up root their family and move back. We lose not only part of our workforce which affects our local level of service, but also volunteers, coaches, and neighbours that help build our community.

Finish this sentence: When I'm not deep in thought about city politics and civic issues, I'm...

... creating and organizing opportunities for business, the community, and non-profits to grow and learn about issues that will affect them.

What's the last book you read?

My family keep me well stocked with mystery, sci-fi, and fictional books. I just finished Patrick Rothfuss' series The Name of the Wind and A Wise Man's Fear.

What's the last movie you watched?

Crazy Rich Asians.

The best thing about Fort St. John that people don't know about is...

Our amazing BC Parks and outdoor recreation activities close to home. Embracing a year-round lifestyle is fun and keeps you young at heart. Our 300+ days of sunshine also helps us grow 90 per

Lilia Hansen.

cent of BC's grain and 95 per cent of BC's canola. Thirty per cent of BC's honey come from the North Peace.

If you weren't living in Fort St. John, where would you be?

I've lived in Fort St. John for 40+ years and appreciate the opportunities this community has provided to my family. I want to ensure Fort St. John continues to thrive for future generations. I plan to remain living here when I retire, but do love to explore other countries when the opportunity arises. You build friendships and bridges with people when you travel. You have the responsibility of being an ambassador while travelling so

it's important to be respectful of other cultures and be an example of why Canadians are widely welcome in so many countries. Suddenly the places you visit, or the person you've met, means something important to you when you hear about their on the news, more than just a place on a map. You can learn a lot from others, the good and the bad, and it's important to put that knowledge to use. That being said, there's no feeling like coming home!

Want to know more about Lilia Hansen? She can be reached by phone at 250-261-3148, or by email at liliahansen@shaw.ca.

Operator

Kelt Exploration has an excellent opportunity for an experienced full time operator in the Fort St. John operating area. Working in a high paced, high energy work team the primary responsibility of the successful person will be to effectively participate as a team member by providing safe and cost effective operation and maintenance for our wells, gathering systems, and process facilities. The operations team ensures the superior performance of mechanical, instrumentation and facilities by implementing cost efficiencies and maximizing production. The successful applicant must be willing to work extra hours and be on-call as required.

Key Accountabilities & Responsibilities

- Manage and maintain day-to-day operation of wells, pipelines and processing facilities
- Compliance with production accounting utilizing FieldView
- Manage wells by utilizing SCADA
- Contribute to successful daily execution of the area Business Plan (i.e. production volume targets, HSER, OPEX,) identifying opportunities to maximize production, minimize operating costs and minimize downtime
- Provide equipment maintenance and troubleshooting
- Provide training and mentoring for team members to assist in completion of assigned production tasks that required additional competencies or in depth problem solving
- Consistently meets and strives to exceed Kelt Exploration expectations including: Health, Safety & Training; community relations; environment; regulatory; company policy; corporate values; and Code of Business Conduct and Ethics.
- Perform housekeeping, performance monitoring and maintenance activities

Qualifications

- Minimum 5+ years of oil and or gas operating experience
- Must have a minimum of a High School Diploma or equivalent
- Class 4 Power Engineering Certificate is an asset
- This is a safety sensitive position and will be subject to the relevant requirements of the Kelt Exploration (LNG) Alcohol and Drug Policy
- Possess excellent communication skills, a positive attitude and the ability to work effectively in a team environment
- Self-motivated with a strong work ethic and the ability to work in an unsupervised work environment
- Strong troubleshooting and problem solving skills
- Strong computer skills (proficient in MS Office Suite)
- Possess a valid Class 5 driver's license - drivers abstract is required

We thank all applicants. Only those selected for interviews will be contacted. Applicants must include a copy of their resume and updated drivers abstract to be considered.

To apply, please email your resume to: careers@keltexploration.com

OBITUARIES

ROBERTS, Elenor Price Hofferd 1937-2018

Elenor was born in Wetaskiwin, Alberta, in May 1937, the only daughter to Emil and Ruth Price, and older sister to Wallace (Wally). She attended a one-room schoolhouse until high school, at which time the family moved to Edmonton. She graduated a year before the entry age for nursing school so Elenor worked as a cashier at Woodwards, a job she enjoyed, then entered the Royal Alexandra Hospital nursing program.

She married Russell Hofferd, who had three small children, Brian, Russel Jr., and Wendy, shortly after graduation in 1959. They lived and worked in the Northwest Territories and Northern Alberta. Elenor and Russell then raised their two sons, Tim and Brent, and daughter Ruth in Northern Alberta, Prince George, the Peace River Region and Chetwynd, B.C. Russell passed after 33 years of marriage.

When she retired from nursing in 1993 and was enjoying her life as a busy grandma, she met a wonderful man at the senior's center in Dawson Creek and they eloped in 1996. Harold Roberts and Elenor generously shared their busy retirement years with a combined total of 8 offspring and their families. Together they travelled extensively from coast to coast in Canada, including the Yukon, several European countries and quite a few states in the U.S., a highlight was visiting Normandy with Harold for the 50th anniversary of D-Day. They kept very busy with gardening, bridge, raising Labrador retriever puppies, curling, the B.C. senior games, Ducks Unlimited, the Royal Canadian Legion, volunteering and spending time with their beloved family. Harold passed in 2011 after 15 years of marriage. Her final years were spent at a delightful and active senior's residence filled with terrific folks in Kelowna, B.C., close to many family members and her dear friend Bill. She never stopped being busy, always cared deeply for her friends and family and her healing touch, kind and compassionate nature, will truly be missed by all who knew her.

Elenor passed suddenly but peacefully surrounded by family who loved her deeply. She is survived by her three children, Tim, Brent (Wendy) and Ruth, her five step children, Ross, Gail (Wayne), Hal (Gloria), Sandra (Terry) and Bonnie (Gerald), 13 grandchildren, 13 great-grandchildren, her brother Wally (Inez), nephews, nieces, cousins, family and friends, all of whom will miss her immensely.

A Celebration of Life will be held on Saturday, October 27, 2018 at 1:00 pm at Springfield Funeral Home, 2020 Springfield Rd, Kelowna, B.C. If you wish to contact a family member or to share a story or picture, send to: Elenors.legacy@gmail.com. In Elenor's memory, please support your local Salvation Army, hospital auxiliary and pediatrics units.

Condolences may be sent to the family by visiting www.springfieldfuneralhome.com.

Caregiver/Nanny for hire: To look after my (3) children; 14 year old; 8 year old & 4 year old girls. Permanent, full-time at a rate of \$12.65/hour for 40 hours/week. CITY BEAT
Updates from October 22, 2018 Council Meetings

PROCLAMATIONS

- October 26 – November 11, 2018 was proclaimed as **“Poppy Campaign”** in the City of Fort St. John. Poppies will be for sale at various locations in Fort St. John throughout the campaign. Wearing a poppy serves as a reminder of those who guard and protect our country. Funds collected from the sale of poppies help fund programs that assist veterans.
- The month of November 2018 was proclaimed as **“Adoption Awareness Month”** in the City of Fort St. John. The Adoptive Families Association of BC requested the proclamation to bring awareness to the many children in BC who are waiting in foster homes for adoption. On November 9, 2018, the Pomeroy Sports Centre will be lit up in green to recognize and honour adoptive and guardianship families.
- The month of November 2018 was proclaimed as **“Be an Angel Month”** in the City of Fort St. John. The intent of the proclamation is to promote the launch of the 22nd Annual “Be an Angel” Campaign organized by the Fort St. John Hospital Foundation and hopes to realize a fundraising goal of \$250,000 with opportunities to donate throughout November.

STAFF RECOGNITION AND LONG SERVICE AWARDS

Council acknowledged the educational achievements of two staff members. Kim Ward, Building Inspector I, was recognized for achieving Building Official 2 Certification with the British Columbia Building Officials Association and Jagdish Naraina, Building Inspector 2, was recognized for achieving Building Official 3 Certification.

Council presented Long Service Awards to four employees from the Fort St. John Fire Department:

- Paul Roe, Fire Fighter – 5 years
- JasenDonszelmann, Fire Fighter – 10 years
- Adam Winn, Fire Fighter – 10 Years
- Fred Burrows, Fire Chief – 15 years

LIQUOR LICENSING

Council recommended the issuance of a Liquor Primary Licence for the North Peace Cultural Society. Council considered noise and safety as well as local area impact in their decision to support the application. The application will be submitted to the BC Government for provincial approval.

Council also recommended approval of an application for a permanent change to liquor licence (extension to hours of liquor service) made by Mighty Peace Brewing Co. The proposed extended hours of service are 9:00 am to 11:00 pm from Monday to Sunday. The application will be submitted for provincial approval.

PERMISSIVE TAX EXEMPTION BYLAWS

The following four Permissive Tax Exemption Bylaws were adopted by title only:

- Pinnacle Capital Corporation (Canadian Red Cross Lease Agreement) Permissive Tax Exemption Bylaw No. 2445, 2018
- Industrial Surplus Supplies Ltd. (North Peace Gymnastics Association) Permissive Tax Exemption Bylaw No. 2446, 2018
- City of Fort St. John (Fort St. John Curling Club Management Agreement) Permissive Tax Exemption Bylaw No. 2447, 2018
- Fort St. John Association for Community Living Permissive Tax Exemption Bylaw No. 2448, 2018

UPCOMING COUNCIL MEETINGS

The Inaugural Council Meeting is scheduled for **Monday November 5 at 5:30 p.m.**
A Committee of the Whole meeting is tentatively scheduled for **Tuesday November 13 at 1:00 p.m.**
The Regular Council meeting will follow at **3:00 p.m.**
All meetings will be held in the City Hall Council Chambers and the public is welcome to attend.

LEASE OF LAND

In accordance with Section 26 of the Community Charter, notice is hereby given that the City of Fort St. John intends to lease the concession area within the North Peace Arena to Tasty Dogs on land legally described as Parcel 1, Plan BCP 29880 Section 31, Township 31, Township 83, Range 18, Meridian 6, Peace River Land District (civic address 9805 96 Avenue) for:

- \$980.00 per month plus applicable taxes for the months of October to March
- \$33.00 per day plus applicable taxes for daily operating for the months of April to October

For a five year term ending on September 30, 2023.

Inquiries regarding this lease of land may be directed to Janet Prestley, Director of Legislative and Administrative Services at (250) 787-8153 by November 13, 2018.

Fort St John Pilot Project Annual Report Release Notice

Notice is hereby given that Fort St John Pilot Project's annual report has been released. Fort St. John Pilot Project is a collaborative forest management planning initiative between forest licenses and the BC Timber Sales in the Fort St John Timber Supply Area. The pilot project uses result-based approach to achieve the objectives and standards of the current legislation with a statutory and management package that reduces regulatory burden and administrative cost.

67 performance indicators are developed in the pilot project to examine the performances of the project participants. Each year, an annual report is generated by Canfor and BC Timber Sales on behalf of all the project participants, to review the participants' compliances to the indicators, as required by the Canadian Standards Association and the Fort St John Pilot Project Regulations.

This year's annual report, covering the period from April 1, 2017 to March 31, 2018, has just been released on <http://www.fsjpilotproject.com/annualreports.html>, for public's review. For further information on the annual report or the pilot project, please contact Peter Zhang @ 250-787-3613/Peter.Zhang@canfor.com.

OBITUARIES

OBITUARIES

OBITUARIES

Reginald B. Harmer

March 31, 1923 - September 6, 2018

Reginald B. Harmer died at the Chinook Regional Hospital in Lethbridge, Alberta on September 6th, 2018 with family members by his side. He was born in Radville, SK to Walter and Ida Harmer on March 31, 1923. He was predeceased by his parents and his wife Irene Harmer (nee Bentley) of Kimberley BC. He is survived by his sister Norma Pastchak of Radville SK, his children Susan Groat of Edson, AB, John Harmer and his wife Barbara of Lethbridge, AB, Michael Harmer and his wife Denise of Kelowna, BC, and Nancy Large of Dawson Creek, BC, his grandchildren Jamie Blundell, Joe Groat, Ryan Groat, Jennifer Van Reede, Janice Harmer, Carson Large, Chance Large, his great grandchildren Brooklyn Blundell, Melodia Blundell, Liam Groat, and many nieces and nephews.

After leaving home, Reg worked in the oil patch for a time, then entered training to become an electronics technician. After his training and working in Winnipeg repairing electrical transformers, he joined the federal Department of Transportation at the age of 21 as a radio operator, and spent the next 36 years working at several points on the Alaska Highway between Fort St. John, BC and Whitehorse Yukon as a radio operator, electronics technician, and station manager. Retired at age 57, Reg always joked the government would be happy with his passing, as he enjoyed collecting his pension for more years than he worked. He made several attempts to enlist in the army during the second world war, but was held back because his position was considered essential to the war effort, and a problem with one of his ears also kept him out of the service.

Reg and Irene were married in 1950 and established their home in Fort St. John. In 1959 they moved to Teslin Lake, YT, to Fort Nelson BC in 1960, then back to Fort St. John in 1964. Their final move together was to retire in Kimberley BC in 1990. They enjoyed many travel adventures around the world. One of their first adventures was in 1955 when they loaded their first two kids into the car, with Grandma along for the ride, and drove from Fort St. John BC to Mexico and back on a shoestring budget, which generated many stories of problems and adventure. They enjoyed several international trips, and spent many winters as snowbirds pulling their trailer around the Southern US and Mexico. They easily made friends wherever they went, and the two of them were generally the life of the party.

Reg was dedicated to his family, and his support, good cheer, and many visits were always looked forward to. Reg was a longtime supporter of the United Church of Canada, was an enthusiastic and successful curler, enjoyed playing golf into his 90's, and is remember by the many friends and family members he leaves behind as a kind, generous and enthusiastic gentleman.

Please join the family to celebrate his life at the Kimberley United Church at 1 PM on Sunday, May 19th, 2019.

SENIOR PLANT OPERATOR

Location: Pouce Coupe, AB
Status: Full-time permanent

Posted: April 15, 2019

Reporting to the Gas Plant Foreman, the right candidate is fully familiar with all aspects of sour gas plant operations, procedures for safety, troubleshooting, production logging, start-up, shut-down and equipment maintenance.

General Requirements and Responsibilities:

- Fully competent in the safe operation, maintenance and repair of pressure, process and rotating equipment;
- Experienced in troubleshooting upset plant conditions;
- Provide mentorship and coaching to more junior employees;
- Able to work independently with minimal guidance from Foreman and Lead Operators;
- Assists with organization and implementation of company-wide programs such as preventative maintenance, pipeline integrity, electrical QMP, turnarounds, pressure equipment integrity, etc.;
- Support our HSE program by assisting in the development of operational policies, standards, procedures, and practices.

Education, Skills and Abilities:

- 8+ years' operating experience in a Gas Plant environment;
- 4th Class Power Engineering or higher is required;
- Control Room/Board operating experience is considered a significant asset;
- Safety Certification required – H2S Alive, First Aid and CPR, Common Safety Orientation, etc.;
- Ability to self-start as well as work effectively as a team member;
- Critical thinking skills with the ability to manage and assess risk;
- Attention to detail with the ability to manage and prioritize workloads;
- Excellent organizational and communication skills both written and verbal;
- Computer skills like Outlook, Word, Excel, some experience with PVR, Scada, Roughneck or DATS is beneficial.

Application Process

Note that this position is located at Birchcliff's 3-22-78-12W6 Pouce Coupe Gas Plant. The ideal candidate must reside in the Spirit River, Dawson Creek or Pouce Coupe area.

Interested applicants are invited to submit their resume to careers@birchcliffenergy.com with the term "Senior Plant Operator" in the subject line of the email.

Birchcliff Energy Ltd. (www.birchcliffenergy.com) offers competitive compensation, stock options and benefits to its employees. The successful applicant will be a highly motivated, flexible, enthusiastic and well-organized individual who enjoys being part of a fast-paced team.

We thank you in advance for your submission; however, only those selected for an interview will be contacted.

Application to Amend Environmental Assessment Certificate, #E14-02, for the Site C Clean Energy Project

Invitation to Comment

BC Hydro, (the "Certificate Holder") has submitted an application for an amendment of the Environmental Assessment Certificate (EAC) #E14-02 for the Site C Clean Energy project (the "Project"), issued on October 14, 2014, and amended on February 12, 2019 under the *Environmental Assessment Act*.

The Project is located approximately 5 km southwest of Fort St. John, BC. The Project is made up of an earthfill dam along with the associated generating station, spillways, reservoir, substation, transmission lines, and Highway 29 realignments.

The application for amendment is focused on changes to the design of Highway 29 realignment at Cache Creek/Bear Flat.

The following change is proposed:
Revisions to allow a change in the route of the Cache Creek segment of the Highway 29 realignment, including refinements to the route and lengthening the bridge. The new route is located north of the original alignment in the EAC.

The public comment period is 30-days. During this period, the public is invited to submit concerns regarding new or additional adverse impacts that might result from the proposed amendment.

The intention of seeking public comments is to ensure that all potential effects – environmental, economic, social, heritage and health – that might result from the proposed changes are identified for consideration as part of the amendment process.

The comment period will begin on June 21, 2019, and conclude on July 20, 2019. All comments within the scope of the application for amendment will be considered as part of EAO's review.

The Decision Statement under the Canadian Environmental Assessment Act, 2012, issued by the federal Minister of

Environment and Climate Change on November 25, 2014, contains conditions regarding BC Hydro's obligations in regard to the Project. The Canadian Environmental Assessment Agency will consider comments received by EAO regarding potential adverse environmental effects from the proposed project changes and the proposed mitigation measures in the context of the Decision Statement.

Decision Statement: <http://www.ceaa-acce.gc.ca/050/evaluations/document/100567?culture=en-CA>

EAO accepts public comments through the following ways:

- By Online Form:** <https://projects.eao.gov.bc.ca/p/588511a0aecd9001b82316d/commenting>
- By Mail:** Kim Walters, Project Assessment Manager
Environmental Assessment Office
PO Box 9426 Stn Prov Govt
Victoria BC V8W 9V1
- By Fax:** 250-356-2208

An electronic copy of the Certificate Holder's application for amendment is available at:

EAO website: <https://projects.eao.gov.bc.ca/p/site-c-clean-energy/docs?folder=1130>

Certificate Holder website: www.sitecproject.com

NOTE: All submissions received by the EAO during the comment period in relation to the proposed Amendment are considered public and will be posted to the EAO website.

Application to Amend Environmental Assessment Certificate, #E14-02, for the Site C Clean Energy Project

Invitation to Comment

BC Hydro, (the "Certificate Holder") has submitted an application for an amendment of the Environmental Assessment Certificate (EAC) #E14-02 for the Site C Clean Energy project (the "Project"), issued on October 14, 2014, and amended on February 12, 2019 under the *Environmental Assessment Act*.

The Project is located approximately 5 km southwest of Fort St. John, BC. The Project is made up of an earthfill dam along with the associated generating station, spillways, reservoir, substation, transmission lines, and Highway 29 realignments.

The application for amendment is focused on changes to the design of Highway 29 realignment at Cache Creek/Bear Flat.

The following change is proposed:

Revisions to allow a change in the route of the Cache Creek segment of the Highway 29 realignment, including refinements to the route and lengthening the bridge. The new route is located north of the original alignment in the EAC.

The public comment period is 30-days. During this period, the public is invited to submit concerns regarding *new* or *additional* adverse impacts that might result from the proposed amendment.

The intention of seeking public comments is to ensure that all potential effects – environmental, economic, social, heritage and health – that might result from the proposed changes are identified for consideration as part of the amendment process.

The comment period will begin on June 21, 2019, and conclude on July 20, 2019. All comments within the scope of the application for amendment will be considered as part of EAO's review.

NOTE: All submissions received by the EAO during the comment period in relation to the proposed Amendment are considered public and will be posted to the EAO website.

The Decision Statement under the Canadian Environmental Assessment Act, 2012, issued by the federal Minister of Environment and Climate Change on November 25, 2014, contains conditions regarding BC Hydro's obligations in regard to the Project. The Canadian Environmental Assessment Agency will consider comments received by EAO regarding potential adverse environmental effects from the proposed project changes and the proposed mitigation measures in the context of the Decision Statement.

Decision Statement:

Haydey, Lawrence
June 4, 1939 – June 7, 2019

It's with deep sadness that we announce the sudden passing of Lawrence Haydey.

Predeceased by wife, Helen; and children, Debbie and Keith. Survived by Louise Brown (Barry), Dale (Valerie), Rod (Lorraine), siblings, grandchildren, and great-grandchildren.

Born in Manning, Alberta, in 1939 Lawrence spent most of his years in the Dawson Creek, Peace Region, working in road construction. After retirement, he spent time with his children living in Prince George and Ottawa. Lawrence (Larry) leaves behind lots of extended family members and many longtime friends.

On his 80th birthday, Lawrence took a serious fall and succumbed to his injuries on June 7th surrounded by his family.

Special thanks to Norm and Shelley for their hospitality to Dad and their quick action after his accident. Thank you also to the caring nurses and doctors at PGRH.

A gathering of family and friends will be announced at a later date.

ANNUAL MUNICIPAL REPORT PUBLIC MEETING
Monday, June 24, 2019
6:00 p.m.
City Hall Council Chambers

The City of Fort St. John invites the public to attend a meeting on June 24, 2019 at 6:00 p.m. in Council Chambers to receive the Annual Municipal Report. The purpose of this meeting is to review the annual report and to receive submissions and questions from the public.

This report includes the 2019 goals and objectives, an update on 2018 goals and objectives, the 2018 audited financial statements, and a report on permissive property tax exemptions. Copies of the report are available on the City's website at www.fortstjohn.ca or at City Hall, 10631 – 100th Street.

Any inquiries regarding this public meeting or the Annual Municipal Report may be directed to David Joy, General Manager of Corporate Services, via email at djoy@fortstjohn.ca or by telephone at 250-794-3300.

TENDERS

SCHOOL DISTRICT NO. 60 (PEACE RIVER NORTH)
TENDER – CUSTODIAL SERVICES

School District No. 60 (Peace River North) is accepting tenders to provide custodial services at the following school:

Wonowon – approximately 88 kms from Fort St. John

Custodial services will commence September 1, 2019 and continue up to and including July 15, 2021, with the option of extending to a third year.

In general, duties will include:

- Daily cleaning of the school and gymnasium, five days per week (Monday - Friday);
- Steam cleaning carpeted areas at least three times annually, and as required;
- Removal of snow from outside entrances and fire exits;
- Cleaning exterior windows at least twice annually;
- Keeping the immediate area around the school clean from debris and garbage;
- Changing light tubes and bulbs, as required.

NOTE: Tenders for Wonowon Elementary School are not to include cleaning of the kitchen area or other cleaning required as a result of Wonowon Horse Club activities.

Contractors will be responsible for supplying cleaning supplies and equipment. If there is a need for equipment rental from the District, that need must be stated within tender proposal. Contractors must be able to communicate and work in co-operation with the staff in the school. Contractors must have their own WorkSafe BC coverage and supply the clearance letter to the district with the tender submission.

Separate tenders, stipulated in dollar amounts per month, must be submitted for the location. The lowest or any tender will not necessarily be accepted.

Further detail concerning this tender may be obtained by contacting Radu Grigoras, Maintenance Supervisor - Facilities, at 250-262-4007.

Written tenders reflecting experience and at least three references will be received by the Secretary-Treasurer until **12:00 noon, June 27, 2019**. Envelope must be clearly marked **"Custodial Tender – (Wonowon)"** and delivered to:
