

Site C Employment by Month: May 2017

Since construction started in summer 2015, BC Hydro's Site C Clean Energy Project has been creating jobs for British Columbians. In the coming months and years, many more jobs will be created as main civil works increases activities, and as major contracts get underway for turbines and generators, transmission and the generating station and spillways.

The table below shows the latest Site C employment numbers.¹ As with any construction project, the number of workers — and the proportion from any particular location — will vary month-to-month and also reflects the seasonal nature of construction work

May 2017 Highlights

- The latest employment statistics show that there were 2,522 total workers on the Site C project in May 2017.
- Of the total workers, 2,027 were from British Columbia, or 80%.
- There were 736 workers on site from the Peace River Regional District — that's 35% of the Construction and Non-Construction contractor's workforce.

Site C Employment Statistics – May 2017				
	# of Total Workers	# of B.C. Primary Residents	% of B.C. Workers	# (and %) of Peace River Regional District Primary Residents
Construction and Non-Construction Contractors² <i>Excludes work performed outside of B.C. (e.g., Manufacturing)</i>	2,115	1,659	78%	736 (35%)
Engineers and Project Team³	407	368	90%	---
Total Workforce	2,522	2,027	80%	---

Employment numbers provided by Site C contractors and consultants are subject to revision. Data not received by project deadline may not be included in the above numbers.

BC Hydro has contracted companies for major contracts, such as main civil works, who have substantial global expertise. During the month of May 2017, there were 6 workers in a specialized position working for Site C Construction and Non-Construction Contractors, which were subject to the Labour Market Impact Assessment process under the federal Temporary Foreign Worker Program. Additionally, there were 35 management and professionals working for Site C Construction and Non-Construction Contractors through the federal International Mobility Program.

There were 47 apprentices employed during the month of May 2017. As with any construction project, the number of apprentices will vary depending on the type of work being performed.

¹ Employment numbers are direct only and do not capture indirect or induced employment.

² Construction and Non-Construction Contractors includes work performed on Site C dam site, transmission corridor, reservoir clearing area, public roadwork, worker accommodation and services.

³ Engineers and Project Team are comprised of both onsite and offsite workers. The Project Team includes consultants, BC Hydro Construction Management and other Site C project staff. An estimate is provided where possible if primary residency is not given.

Site C Employment by Month: May 2017

Aboriginals

There were 211 Aboriginal people working for Site C Construction and Non-Construction Contractors. The number of Aboriginal people was provided by on-site Construction and Non-Construction contractors that have a contractual requirement to report on Aboriginal inclusion in their workforce. Workers voluntarily self-declare their Aboriginal status to their employer.

Women

There were 393 women working for Site C Construction and Non-Construction contractors. The number of women was provided by on-site Construction and Non-Construction contractors that have a contractual requirement to report on the number of women in their workforce.

May 2017: Site C Construction and Non-Construction Contractors' Job Groupings

The table below shows⁴ the latest Site C Construction and Non-Construction Contractors numbers⁵, broken down by job groupings. As with any construction project, the number and type of workers will vary due to the seasonal nature of construction work and the type of work performed.

The data below is reflective of Construction and Non-Construction Contractors that are required to provide job classification data. Job classification data not required by contractors is also noted. Data provided by Site C contractors are subject to revision. Data not received by project deadline may not be included in the numbers.

⁴ Employment numbers are direct only and do not capture indirect or induced employment.

⁵ Construction and Non-Construction Contractors includes work performed on Site C dam site, transmission corridor, reservoir clearing area, public roadwork, worker accommodation and services, and office staff.
